- The website received **132 organic clicks** from **15K search impressions**, showing strong Google visibility.
- **"linus business solutions"** remained the top-performing keyword with the highest organic clicks.
- High-impression keywords such as **"restaurant POS software"**, **"smart kiosk"**, and **"NGX Billing Machine"** have strong visibility but need better CTR.
- The **average position (13.82)** indicates several keywords are close to the first page and can improve with optimization.
- **Recommendation:** Optimize page titles and meta descriptions, strengthen internal linking, and publish more product-focused content to improve rankings and organic clicks.

Content Publishing

- Instagram reached **3,639 accounts** and generated **3.08K views**, increasing brand visibility.
- The account gained **4 new followers**, bringing the total follower count to **16**.
- **Posts (61.22%)** were the primary content format, followed by **Stories (20.41%)** and **Reels (18.37%)**.
- **20 profile visits** indicate users showed interest in learning more about the business after viewing content.
- **Recommendation:** Increase the number of Reels, showcase product demos and customer success stories, and maintain consistent posting to improve reach, engagement, and follower growth.
